

## Burning Permit Requirements

1. Current burn permit must be on site when burning.
  2. Fire Dispatcher must be notified prior to burning 263-1212.
  3. Opening burning shall not take place when wind velocity exceeds 15 M.P.H.
  4. No material shall be burned except grass, yard clippings, leaves, twigs and tree limbs no larger than 3" in diameter.
  5. Responsible persons shall be present when burning is conducted.
  6. Provide fire protection, connected garden hose, water hand pump, wet sacks, water tank, etc.
  7. Fire may not be started prior to 8 a.m. and must be completely out by dark.
  8. Burning must not create dense smoke, smoke nuisance or a traffic hazard.
  9. Items to be burned must be placed in small piles so as to not create a large fire.
  10. Violations of these requirements are cause for revocation of permit and arrest.
